THE MOST RELIABLE  
SMART HOME SYSTEMS ARE

# CELLULAR

### No WiFi Router Needed At All

Internet connectivity is a major problem for vacation rental managers. Our system is cellular based.

### Works With Weak Cellular Signal

Cellular data communications require lower signal than voice, just like text messaging. Even with only a single bar, you will have total Smart Home control.

### Cellular Gateway For Each Property

For your specific cellular service, we will install a cellular gateway (shown above) that serves as the communications hub of your Smart Home system.

### Z-Wave Standard Communications

Signals transmitted between the hub and the Smart Home devices use the Z-Wave industry standard.

### PointCentral Smart Home Technology Delivers Benefits For Guests, Homeowners and You!

- ✔ Homeowners are opting in for Smart Home technology including the costs - More than 90% say Yes!
- ✔ Guests love the convenience and safety of Smart Home and prefer it over properties without.
- ✔ Vacation rental managers reduce liability, improve operational efficiencies, and increase profit!
